

Dear reader,

I was all set to write up a list of practical things that each one of us can do to fight back, defend ourselves and ultimately re-assert our authority as free men and women living in this constitutionally-protected Republic, but after re-listening to the very excellent Naomi Wolf interview featured on my web page, it was clear that she had already done it for me!

With that, please enjoy and if you like what you see, then please tell a friend and help spread the word. :-)

Sincerely,  
David

#### **STORY AT-A-GLANCE**

> There are 10 steps that leaders who want to crush a democracy will always take. We are now in Step 10, and traitors are dissolving the boundaries and sovereignty of the United States. The same is also taking place in other nations.

> We are at war, and the federal government, institutions and agencies of various kinds, and the media have all been weaponized against the American people.

> Hopelessness leads to inaction, and without action we're guaranteed to lose everything. The one thing the technocrats' technology cannot compete with is the analog world — analog devices and in-person relationships — so that's where our greatest strength lies.

#### **The Next Step, Historically**

Going by the historical timeline of how a tyrannical regime takes over, the next step will involve a period when opposition leaders, civil rights leaders, outspoken journalists and editors will be arrested and taken to some unknown location. Many will simply be “disappeared.” That’s the point at which civil society just shuts down, even without a coup, because everyone’s too afraid.

After that, mercenaries will show up to reimpose order, but they won't be our mercenaries. They'll be working on behalf of the enemy regime. At that point, the United States will formally cease to exist. The takeover will be complete.

As noted by Wolf, right now, "we're in a time of radical testing of our free will." If we don't wake up in sufficient numbers, the end result is already determined. Without pushback, it can't end any other way. Fortunately, "there's a robust grassroots resistance to this in the United States," Wolf says. "And, I can't believe I'm saying this, but the Second Amendment is the key to the U.S. having hope that other countries don't have."

## **Recommendations Moving Forward**

So, what can we do to prepare? How do we fight back? Regardless of where you are in the world, there's a lot you can do. The key to success is to focus the fight on the local and state level.

There are also preparations you can (and need) to do on a personal level.

*"I'm learning marksmanship. I hate to say it, but this is where we're at," Wolf says. "I'm a peaceful person. I hope no one takes this out of context, but you need to be able to defend your family. You need to be able to hunt. We are getting to that point. Even if you hate guns, now is the time to learn marksmanship and be comfortable with a weapon because you may need to kill for food."*

There's a learning curve when it comes to firearms — how to store, carry and clean them, for example — and you really need to engage in that if you've never had any training in that area.

Secondly, know where your food comes from. Make friends with farmers. Create or join a CSA with your neighbors. Learn how to grow some food. There's a steep learning curve there too. Next, prepare a plan for what to do if there's no electricity and/or digital communications.

“I tell people to print out their bank statements and asset statements because in The Great Reset, you should expect that there'll be some giant blitz and it'll all vanish,” Wolf says. Make sure you have hardcopies of important documents, such as the deed for your home. If you can't produce it, expect the new regime to claim ownership.

Much can also be done on the state level. For example, in Florida, Gov. Ron DeSantis has stated he will not enforce the will of the World Economic Forum. The New Hampshire legislature has also passed a really good bill declaring that if the federal government passes an unconstitutional law, it will not be enforced in New Hampshire.

*“We have been very successful at DailyClout, state by state, mobilizing people to lobby their state representatives. But they have to pass laws fast, and show massive grassroots movement to not enforce the World Economic Forum diktats at the state level. And, our founders were such geniuses, because they set up our system so that states could do this,” Wolf says.*

Importantly, states must accept and be prepared to forgo federal funding and subsidies to retain their sovereignty. We need a new movement where institutions and local leadership publicly forswear any and all corruptible funding, be it from the CCP, the federal government, the WEF or anything else. These individuals and institutions must be willing to disclose the source of all funding, and reject any funds that might make them beholden to an enemy power.

## We Need to Build an Alternative Society

The ultimate goal right now is to begin creating a whole alternative civil society. A “reset,” yes, but not the technocratic, transhumanist reset imagined by the globalists. We need to create uncorrupted science, uncorrupted journalism, uncorrupted medicine. We need governors, business leaders and heads of universities and so on to take a pledge to create uncorrupted institutions that are answerable to the people.

*“By showing people how the legislative process got corrupted and providing, on my site, DailyClout, the way to draft your own laws and pass your own laws, I am also providing people with very concrete ways to protect their liberties and to know what to do in the future,” Wolf says.*

*And, I would be remiss if I didn't add, I personally had to give up my status as a media darling on the left, my friends, and my networks ... when I began to do real reporting on this pandemic and on the mRNA vaccines. We are in a time where people will have to decide, ‘What am I here for on this planet?’ Know that if you cling to lies, and you cling to your professional status, your children will live as slaves and so will you.*

*It's time to be brave, because if we're a little bit brave now, we don't have to be horrifically brave in the near future ... I also think we're in a massive spiritual moment, that we're in a biblical moment, and that there's a level of metaphysics over and above the material and the political assault on us in our reaction.*

*I'm just speaking for myself, but I do feel like this is part of the picture, the nature of the evil that is unfolded around us ... The way the mRNA vaccines target the fetus, target the amniotic membrane, target lactation, this is an evil beyond what Nazis could accomplish. This is an evil of a Miltonic scale.*

*I've looked at it from all sides, and I'm just going to say this, I can't account for it with purely human material processes. It's got an element of sophistication and scale and grandeur that really seems beyond the human to me, and to have an element of massive existential evil.*

*I'm Jewish, so we don't have a highly-developed notion of Satan, but these seem to be malevolent forces that can accomplish things beyond what human beings can accomplish.*

*As a result, I have started to believe in God in a more literal way than I used to, because these malevolent forces seem to be directed at what is good. What is divine? The human face, which my tradition says is an image of God. The human body, which is made in God's image. Love, which is a manifestation of the divine according to many religious traditions. The family.*

*It's like all the things that are being targeted are what is divine about our human journey on this planet. I don't know where to go with that, except that it seems we're in a moment in which — in addition to all the other things we can do, and I'm just speaking for myself — I think we can pray.*

*We don't have the ability just as human beings to get out of this. It's too big. I believe that getting out of it requires an awakening that's massive. And, for myself anyway, asking for divine help has worked before.”*
